MONITORED FENCING

Security Solutions

JVA technology used to secure a perimeter

- ✓ Active Fence Monitoring
- ✓ Passive Fence Monitoring
- ✓ Vibration Fence Monitoring
- ✓ Taut-Wire Fence Monitoring
- ✓ Combinations of Fence Monitoring

MONITORED FENCING

How does it all work?

System Combinations

Any of the systems can be combined to ensure all eventualities are covered

Active Systems

A pulse is injected into the fence and monitored to determine the system status

Passive Systems

A signal is relayed along the fence with the result being analyzed to determine the system status

Vibration Detection

An acoustic cable fixed to the fence is monitored to determine the change in the system status

Taut-Wire System

The strands of the fence are tensioned to the required tension & monitored to determine sudden changes in the fence status

MONITORED FENCING

Security Solutions

“6 D’s”
