# JVA Perimeter Management System

## Security

- Correctional Facilities
- Key Points
- Access Control

## Agricultural/Wildlife

- Farm Fence Management
- Irrigation Management
- Climate Control Management

## Perimeter Patrol

### Features

- The site can be displayed on a Google map layout
- The system is viewed in real time – voltages, alarms, etc.
- The authorized persons can manage the system components, e.g. turn energizers on and off, set fence voltage outputs
- The actions of the operator monitoring the system are recorded
- All activity is recorded with the ability to draw reports
- The individual systems can report to a high level interface

# Partner Products

The following companies partner JVA in creating solutions for industry, domestic, agriculture and wild life security and management.

CCTV Systems

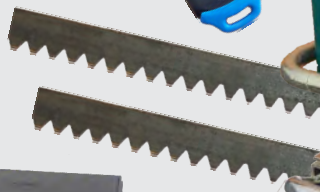

Control Room

Roboguard  
Wireless Outdoor Beams

Gate Automation

# What makes JVA a leader?

First Directional Fault Finder in the world  
First LCD Security Energizer  
First Fully Certified, Compact Security Range  
First LCD Keypad  
First True Two-Zone Energizer  
First Range to control all Energizers with one Keypad  
First Fully Synchronizable Energizer Range  
First Fully Networkable Energizer Range  
First Energizer with Programmable Relays  
First TCIP Communication  
First Energizer with own Remote Control  
First Amperage Monitoring System (ZM1)  
First Large Scale In-House Management System  
First Far Fault Detection  
First Stand-Alone 20-Sector and 50-Sector Monitor  
First All-In-One HV Out and Return LDV  
First Integrated GSM  
First Integrated Cloud Management System  
First IP Energizer  
First Android Keypad  
First 4-Zone, Fully PC Integrated, Low Voltage System  
First Wireless Energizer Sites in the world

## With so many firsts

**is Way Ahead!**

It Does More. It Costs Less. It's that Simple.

**We also provide training on Basics of Electric Fencing,  
JVA Advanced and Roboguard.**
